### The Modest Merchant

*Modest Merchant is a very old friend who accompanied us since our pop-up days; talking to customers about wines whilst we served our classic burnt butter hummus. Alex Percy (The Modest Merchant himself) started as a crowd-funded business. He sought working solely with small wineries in France, Italy and Spain of wine, we stand behind every single bottle on our wine list he provides.*

*At Bubala we've mindfully chosen to work with suppliers who focus on quality and ecological impact. Natural/low intervention wines should be more approachable & accessible for all. Some of our wine suppliers are new, some of them are like old friends, everyone shares the same mission: to serve great wine from around the world.  
(plus everyone likes a good drink)*

all wines by the glass are served in a 125ml measure unless otherwise specified

## Gazoz

*(derived from the Turkish word for 'gas') is a bubbly, fruit-filled non-alcoholic soda.*

*Our Gazoz & house-made sodas are inspired by Benny Briga and his cafe in Tel Aviv, Jerusalem. We source the best fruit, vegetables, spices and herbs to make delicious syrups topped with sparkling water.*

*One of our favorite things is how this platform has extended to the team and has given them the opportunity to explore creativity through making and experimenting with our house-made fruit syrups.*
